## Safety First

When it comes to safety, the FQi Series leaves nothing to chance. Built with a robust frame and advanced safety features, this electric scooter is designed to protect you on every ride.

## Performance That Thrills

Unleash the exhilarating potential of the NIU FQi Series, where cutting-edge technology meets unmatched power. With an impressive top speed of 80 km/h, this electric scooter is engineered for those who crave adventure while sticking to their budget. A robust 4800 W motor provides rapid acceleration, allowing you to effortlessly zip through city traffic or embark on weekend explorations.

## Front Storage Compartment

FQi series features a deep pocket perfect for storing your phone, keys, or other essentials while driving. With easy access to USB ports, your devices can stay secure and fully charged.

## Lockable XL Storage

Keep your gear secure with an under-seat compartment large enough for one helmet and other essentials.

## Smooth Suspension System

Enjoy a superior riding experience as the advanced suspension absorbs bumps and rough terrain effortlessly.
